

# Steps to change your Gmail account password

## 1. Login in your Gmail account

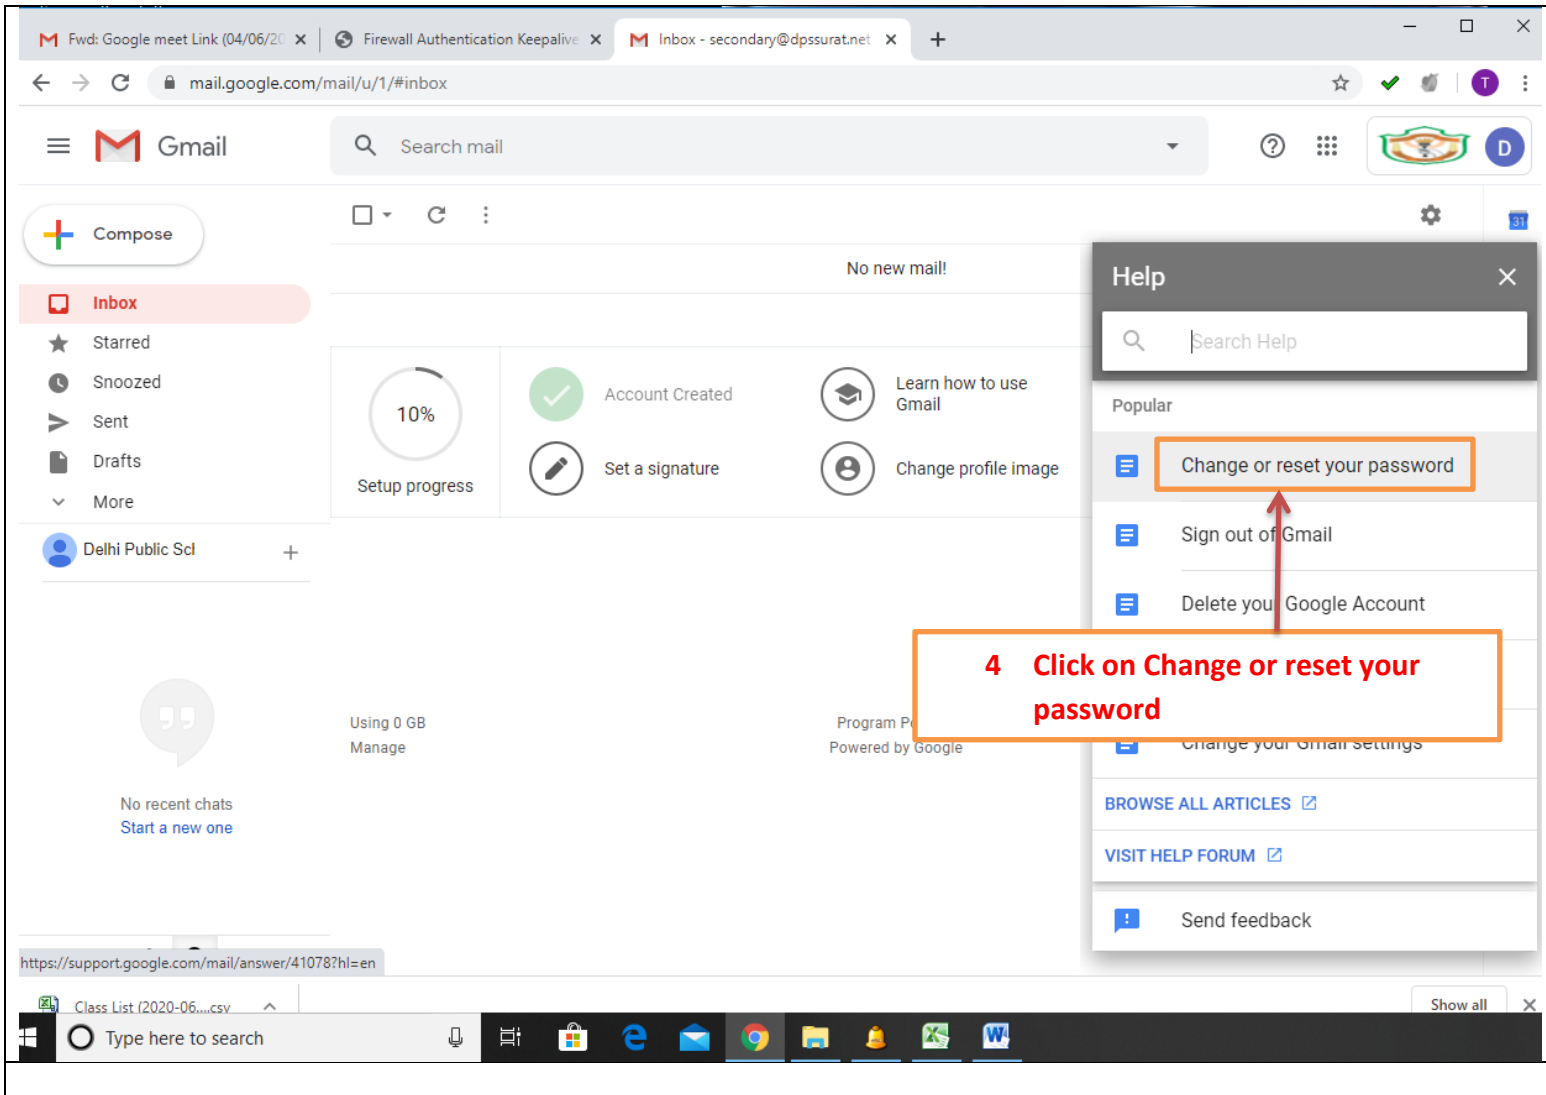

The screenshot shows the Gmail interface in a web browser. The browser's address bar displays "mail.google.com/mail/u/1/#inbox". The Gmail header includes the search bar and the user's profile picture. A dropdown menu is open, showing options: "Help", "Training", and "Updates".

**2 Click on** (An orange box highlights the dropdown arrow next to the search bar, with a red arrow pointing to the open menu.)

**3 Click on Help** (An orange box highlights the "Help" option in the dropdown menu, with a red arrow pointing to it.)

The main content area shows "No new mail!" and a "Setup progress" section with a 10% progress indicator. Below this are several setup tasks: "Account Created" (checked), "Set a signature", "Learn how to use Gmail", and "Change profile image".

The bottom of the screen shows the Windows taskbar with the search bar and various application icons.

**4 Click on Change or reset your password**
