Editorial

For the clumsiest, silliest, most fun to be around, supportive, friendly, too good to be true seniors. You are the best! Through all these years we never felt that line of seniors and juniors you were always the cool friends of ours. The guide we could never find. The teachers we never had, the friends we always needed, the role models everyone should have. We are so glad to have seniors like yours that make saying goodbye so hard. As the time passes by we all will be in different parts of the world doing different things having far more different lives than now but when we turn around we want you to cherish the moments you had with us, you had amongst yourselves so here is a memento of your memories from 11th and 12th. The beautiful phase of your life filled with all sorts of memories good, funny, sad, sad and what not...as we call this mixed time of yours the colorful journey.

SPECTRUM 2012-2013

We all are confused for the stream whether we agree or not...10th STD when everyone is bugging you with questions of your stream when everyone scares you about boards. When you are scared to death for not one but two things Boards and the stream you want to opt for... that's when the saviors arrive "THE SENIORS" **drum rolls please.**

COMMERCE!

In the beginning of the year 2013, I had attended the career fest 'SPECTRUM' organised by our seniors. At that time, I was really confused about which stream was the best for me, but attending this programme helped me take decision and I chose commerce with maths as my stream. There are wide ranges of career options in this stream, and one can really choose the option that suits best to their interest.

SANCHI AGARWAL
XI-C

Spectrum 2012-13, was eagerly awaited by everyone as every year it displayed new learning experiences and helped many of us in framing a clear picture about varied streams of humanities and commerce. Through many activities of practical learning I altered my notion of commerce only being a study of numbers. It was completely different, a study of economy, administration skills. It was the most successful event of the year.

HUMANITIES

Spectrum 2012-13 was a very 'needful' and thus proved to be a gainful experience for us. Humanities, being a different though a unique subject, choosing it was a difficult step since my mother was not properly convinced. After the fest, it was an easy task to make up my decision. And today, being a humanity student, definitely it proves to be a positive response. I'm thankful to the school for such an event.

Priyal Bhatia

XI-F

Spectrum 2012-13 cleared my cloudy mind about my preferences of streams. It helped me understand the streams better and realise where I belong. Humanities being a new stream gave us less information/experienced seniors or sources to ask for help but spectrum 2012-13 still helped a lot to get adequate information and showed me a way to create path for me success. I'm very thankful to the school's faculty and our seniors for putting in efforts for helping us have a crystal-clear and better choice.

FAREWELL – GODSPEED

2012-13

Vishesh rajani: Their hard work was seen in our eyes we really appreciate what they did for us thanks a lot :)

Ria Mohindra: We got farewell from them not because it's a school tradition but we got it solely from their hearts...that effort filled our eyes with tears of joy and it made me realize what am I going to miss ...thank you for everything guys we are really missing it all and will miss it all our life ...great work ...and good luck for your future☺

Lehar Vij: They made us relive all the moments that were stored somewhere deep in our memory...it was quite an emotional farewell not only it took us to the past but also showed a glimpse of our future like the college life .I'm really grateful to them for making it so special. Wish you all a very best for your future: D

Anurag kedia: it was amazing.... the dance performances were eye grabbing and so entertaining...I'm really thankful I hope they get even better show than they gave ...they deserve it.

Ishita: farewell was superb! I loved their dance energy we never felt as if we were leaving school there were no sad moments at all...it was all happy and happening

'You'll be missed', has been said before
But a fact you cannot ignore, is that we do love you to the core
Thank you for being as you are...
We might not treat you as seniors
Only because we adore you as friends
But our respect & admiration for you has no ends
Thanks for being our role models...

You have been our supporters and guides,
Have been at our side, through all our lows and highs
Thanks for being there...
You did not treat us as juniors, but as equals
Wish our high school life had a sequel
Thank you for being so welcoming...

Wish you could stay a little longer,
You were the reasons for us being stronger
Thanks for the strength...
The time flew at a time unimaginable,
The moments spent with you all were unbelievable
Seniors, you are truly un forgettable...

Time to bid you goodbye
But we won't say 'FAREWELL',
Our bonds will grow stronger, time will tell
Thank you for coming into our lives...

5 THINGS YOU'LL MISS ABOUT SCHOOL

1) Teachers

2) School events

3) Trips

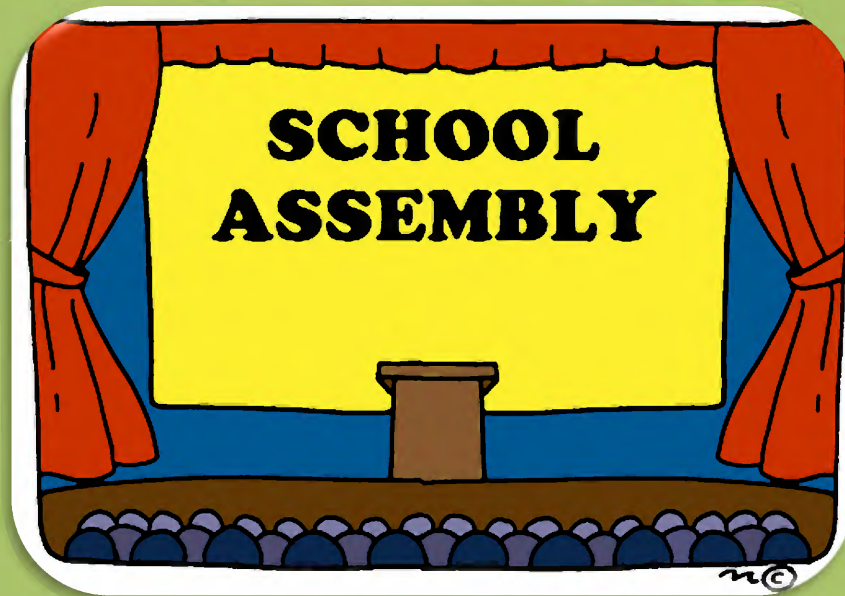

4) Friends

5) THE AWESOME JUNIOURS

5 THINGS YOU'LL NOT MISS ABOUT SCHOOL

- 1) Waking up early
- 2) Summer Uniform
- 3) Assembly
- 4) Projects
- 5) Block Periods

Class 11-d a wonderful surprise package. May your zest and zeal spill over into all areas of life.

Love

Ms. Sandhya S. Nayar

During these two years with these lively bunch of science students i have experienced the joy of school life by sharing their secrets, laughing with them in laughter moments and scolding them for their mistakes. The future lies before you like a hidden mass of snow, be careful how you tread on it for every mark will show

Love

Ms. Drishti

The batch of science "12-b" has been the best of all the others
best wishes to all

Ms. Karuna Jain

Dear students,

No matter where you will go and what you'll do later in life , always remember you were and will be loved by your teachers. We may forget to express our admiration in the chaos of corrections, classes & disciplinary scoldings but from the bottom of our heart we wish only the best for you and in you

Ms. Swati Kokra

A box full of emotions, some walk as sports stars, some as toppers, some as master of language, some portray words to colours, few mark the style statement such definition of class 12-C will still remain incomplete because it is something beyond the four walls

Ms. Ruchi Tondon

I found class 12 students were very energetic and sporty because they frequently came to ask for P.E. period when any teacher was absent in the class. I wish them all the best in future

Mr.Chandrika Singh

My first experience in school with 12-C has been truly memorable one. You have been a perfect mix of words and fun. Today as you step out into a new world, I only wish to tell you that-live each day with great enthusiasm, strive to do each task that comes your way with your best potential, and don't forget to give your share of love and care to the world , because the world needs it.

Ms. Smeeta Chharia

I enjoyed immensely being a part of 12-E family. As I relive the past two years, I remember with warmth " the famous 12", who were full of life, with never say die attitude. Each one of them is unique. A friendly chirpy bunch who could lighten up the atmosphere with their zest for life and at the same be focussed , determined to achieve their goals. Will miss their "sunny optimism".
